which became notorious as resort for wealthy men about town.

Affidavits from New York allege Mrs. Slebs amassed her fortune while operating the place, keeping secret her income from members of her family, excepting her father, the while. One affidavit states that Mrs. Slebs's father, who died two years ago, a well-known gambler of New York, was a partner of his daughter in her palattal resort.

Mrs. Slebs died at Stellacoom Asylum in April, 1902. She had been committed by sanity commission three years previous, six weeks after she arrived from Washington City to visit her sister, Mrs. Jennie Drury Moulton, wife of Clarence E. Moulton, formerly attorney for the Western Land Department of the Northern Pacific Railway.

Moulton is now a prominent lawyer of Portiand, being retained by the Oregon and California Railroad (Harriman.) to hold its big land grant.

Ten days before she was committed, Mrs. Seib made a will leaving her property comprising cash, Jewelry, mining and railroad stock to Mrs. Moulton.

Drury is suling for a share of the estate on the ground that his sister was mentally incompetent to make a will being afflicted with parests.

Volunimous depositions were introduced today from New York, Washington, and Bridgeport, Ct.

After returning from Los Angeles yesterday, where she attended insanity proceedings of her mother, Mrs. Thayer, who was later sent to the Poor Farm, Mrs. George Helvie collapsed on the street and was taken to a physician's office where she remained all night, under treatment. This morning, still unnerved, she was conveyed home in an ambulance.

The Bath-house company tonight presented to the City Council a demand for \$156.41 for emergency work on the beach during recent, high water. The company built a temporary bulk-head and protected it with sand bags after the Board of Public Works and declined to take any action for lack of money. The demand was referred to a committee.

Vernon, 2; Portland, 2. Ten innings.

The Beavers had another attack of heart failure yeasterday out at the Vernon grounds. The Haps walloped them in a ten-inning buttle that Steen threw away at the last minute when the fans had started to go home on the assumption that they might have to stay all night to see a finish.

What Steen was doing in that tenth inning made the air around McCredie black and blue, and if the Beavers keep on at this rate a jack rabbit tamale will win more permants than they will this year, but they had no license to get anything yesterday. They made four bungles, and the Vernons sodesed their flingers for ten swats and they were really lucky to get a run. Carson's weakness in the fourth was all that saved them from taking home a mest of goose eggs.

McCredie could have stood for anything but that tenth inning and yet nough happened then to make him virget Judge Graham and his decisions, at that is saying a lot.

Dawson was running the faster, but on the bad turn of the track, where two drivers have been killed, Mulford, with full speed on, would shoot ahead of Dawson, who always played the corner safe. Dawson waited until there was less than twenty miles to go and then shoved his car miles to go and then shoved his car miles to go and then shoved his car alongside the Lozier. Mulford played the turns desperately for the next few turns of the course, and they went into the last two mile lap with but a few inches separating the noses of the course.

For half an hour neither of the young people in the pergola had spoken. To all appearances, the man had, been deeply absored in the critical monthly he held, but an unbaised observer would have said that the girl's absorbtion in her popular magazine was more genuine. Finally the man said, in those honeyed tones so often adopted to bridge the chasms of misunderstanding. "Here is a writer in the Review who says that truth is stranger than fiction, as to persons as well as events."

With a last lingering glance at the page before her, the girl tore her attention from the story and asked.

"What sort of persons?"

"Well, the fellow mentioned girls, especially. He tells of once, when he was hunting, meeting a girl with a gran. She had a fuller game beg than he, and found later that she could do a vaudeville turn, correctly solve a proof, and the monthly of the misses of the miss

Mr. Miller tried it for several weeks.

"I have proved my theory." he wrote the enthusiast: "no man on a buttermißt diet would die of old age; he wouldn't have the chance."

"As for managers and squabbling maeagerial incerests," says Miller. "I think it all matters very little to the general public. Whether it's Shubert, whether it's K. & E. whether it's Shubert, whether it's K. & E. whether it's Shubert, whether it's K. & E. whether it's Shubert, whether it's it's good show?"

James S. Hutton, the veteran pilot of theatrical stars, is in deep, dark mourning. Every newspaper man from Pensacola to Vancouver knows Jim Hutton, and remembers that he has always carried his publicity material in a litie black portfolio of crushed seal leather. Causes Debility

Here Are Facts Backed Up By a Strong Guarantee

Catarrh causes debility. In our opinion, most people suffering from general debility cannot be completely cured by medicine not designed to eradicate catarrh. In every case where our remedy falls to give entire satisfaction we will not charge a cent for the medicine employed during the trial. Now, surely no one should hesitate to believe us or to put our claim to a practical test under such conditions. We will take all the risk; no one else can lose anything by the transaction.

We make these statements and this offer because we know and have time and again proved that Rezall Mucu-Tone rarely falls to do as we claim, it is not a cure-all prescribed to cure every disease that flesh is heir to. It is intended for one purpose, i.e., to cure catarrh by assailing the diseased condition in a reasonable, scientific way, which is to employ agents that have been found to have the tonic and alterative power to correct faulty metabolism (tissue change) and to stimulate and help nature overcome the cause or causes of catarrh. This being done, appetite increases, nutrition improves, weight is gained, comfort of body is attained and life's work taken up with the zest natural to the perfectly healthy individual.

We want you to try Rexall Mucu-Tone. Follow directions and take it regularly and consistently for a reasonable length of time. Then, if you are not satisfied, came back and tell us and the money you paid for the treatment will be returned without any argument whatever.

Rexall Mucu-Tone comes in two sizes, 50c and \$1.00 a bottle. Sold only at The Owl Drug Co., Inc., Los Angeles, San Francisco, Oakland, Cal.; Seattle, Wash., and Portland, Or.

OBITUARY.

Mrs. Alice Kingsbury Ceeley.

ALAMEDA. (Cal.) Nov. 4—Mrs. Alice Kingsbury Cooley. California poet, author and actress, died here yeaterday after a lingering filness. Her death was due largely to a gradual breaking down. Mrs. Cooley was a native of Bristoi, England, but came to America with her parents when a child, the family settling in Cincinnati. She was married in that city to Horace Kingsbury. She made her stage debut in the early 60's, winning considerable fame in San Francisco. She played throughout the country in various roles, winning distinction in Shakespeare's plays. Mrs. Cooley was also a wel-known writer of prose and verse and had several volumes of her writings published. She was the mother of eight children and the stepmother of three others. Frank Cooley, the actor; Earl Cooley, president of the San Francisco Galvanizing Works: V. V. Cooley, of Yuba City: Edward Cooley, of Los Angeles, and Mrs. Sallie McKean, of Alameda, are among the children.

cause endless annoyance and will not be satisfactory to either the assessors or the tax payers.

"The adoption of this amendment would make no difference to this company in the transaction of any of its business. This letter, therefore, is written from a disinterested and impartial standpoint. We have observed the operation of the mortgage tax law for twenty years and know its disadvantages. We can state that the present plan, which is the result of the amendment adopted two years ago, is satisfactory. Our opportunities for obsevation are much greater than those of most individuals because of the nature of the business in which we are engaged, and therefore, we believe it to be our, duty to urge the defeat of the amendment. Its adoption would, in our opinion, result in nothing but increased confusion in the assessment and collection of taxes.

LUNACY INQUEST POSTPONED.

Mrs. Anna Garzny, a tuberculosis patient who arrived in Los Angeles from Denver yeaterday morning, was before the lunacy commission for an examination of her mental condition. It was necessary to send her to the County hospital to allow her to recover her equilibrium, in a measure.

She is accompanied by her daughter, Bertha, aged 14 years, who says she was told by her father on leaving Denver not to allow her mother out of her sight. Mrs. Garzny mentally became worse on the way, and it is alleged that the high altitude encountered in crossing Tennessee Pass, Colorado, is a contributing cause of her trouble. The unfortunate woman is the wife of Ignas Garzny, No. 3222 Perry street, Denver.

westerly 150 feet of lots Nos. 42 and 43 in the Abbott Kinney tract, went into court yesterday to protect her rights in the premises. She asks that a purported deed to the property be declared null and void and that her rights in the holding be established.

The land is the property that Victor C. Henry pretended to own when he borrowed about \$6000 from J. Ray Choate, J. Lyan Choate and Eleanor O. Sibeck. Henry is now in the county jail awaiting trial on account of his fremised financial schemes.

It is alleged that September 3 last, Henry counterfeited and forged a pretended deed conveying the land from the plaintiff to Henry for the nominal consideration of \$10; the deed being acknowledged before a notary public and recorded. The plaintiff makes Henry and his victims parties to the case, setting out that they claim to have some interest in the property.

DARWIN'S THEORY.

The experts of the Carnegie Institution have hammered a hole into one
part of Darwin's theory of natural selection, they say, by the experiments
on colors and fishas, says a Washington dispatch. Darwin's idea was that
nature gave warning colors to animals
and plants. This is not so as regards
fishes, asserts Frof. Jacob Reighard,
who has studied the habits and adaptation of the coral reef fishes with a
view to a possible explanation of their
remarkable diversity of form and color.
The gray snapper, the commonest
predaceous fish of the coral region of
Friorida, was experimented on without
removing the fish from its natural environment. The commonest food of

THE STATE TAX AMENDMENT

If Senate Amendment No. 1 shall be ratified, Los Angeles will lose the amount of county and municipal taxation on public utilities, banks and in-surance companies, and gain exempsurance companies, and gain exemp-tion from State taxation on all other property. That this would be largely to her advantage, financially, is assertied by experts who have compiled the figures from the assessment roll. The real estate men, generally, favor the

The strongest argument in favor of the adoption of Senate Amendment No. 1 is that it would take the assessment of public utility companies, banks and insurance companies out of politics, and secure permanently equality and uniformity of taxation. In fifty-two of the fifty-seven counties of California the assessing officers are yearly subjected to solicitations from the attorneys of public utility compa nies to reduce valuations, and charges however unfounded, of corruption, are bandled about before every election. There would be an end of all this, for there can be no dispute as to the gross receipts of a railroad, or telephone, telegraph, gas, light, or water corpora-tion. The books of the company would show the amounts received, and the State officials would have access to the books. Whether the public utili-ties companies would pay less or more ties companies would pay less or more under a tax on gross proceeds than they now pay upon an assessment on valuation cannot at this time be ascertained, but they would be compelled to pay enough to support the State government, including the interest on bonds issued, and real and personal property in the State would be relieved altogether from State taxes.

The national banks of this State are the only corporations which thus far

They are now assessed for \$5,757,216, and pay taxes amounting to about \$150,000. pay taxes amounting to about \$150,000. If they paid taxes at the same rate that other property pays, they would pay \$610,428. The proposed amendment would compel them to pay \$450,000 more than now. They object to this, but are willing to pay six-tenths of I per cent., or \$360,000. They claim that the additional four-tenths of I per cent, or \$360,000. They claim that the additional four-tenths of I per cent, or \$360,000. per cent., which is necessary to make their taxes equal to those of other tax-

Republicans who have followed the party flag through all its vicissitudes cannot fall in line behind a banner with a strange device borne by hands raised in hostility against the vital principles of the party. With the insurgent leaders assailing President Taft and declaring for a Democratized tariff, any voter whose veins are filled with real Republican blood must hesistate to keep step. ADDITIONAL FOLLY OF ARIZONA.
Arizona is again to the front with progressive legislation. This time it is the adoption of the recall, so as to include State officers and judges. The system will have its advantages. When distinguished counsel lose a case, instead of moving for a new trial they will move for a new judge, and where a lawyer is an influential politician, the judge will hesitate about deciding against him. The maxim that where the law seases equity begins, will have added to it a maxim that where both law and equity cease there election will begin. A BRILLIANT DEMOCRAT

Col. Henri Watterson sends the following in the New York political situation to the Louisville Courier-Journal:

The oldest New Yorker can recall nothing like the present political campaign in the Empire State. To say that at this mament the Republican end of it is in a condition bordering on collapse is not to exaggerate the situation.

The election is universally conceded.

it is in a condition bordering on collapse is not to exaggerate the situation.

"The election is universally conceded to Dix. It is the size of the majority which remains conjectural, ranging from \$6,000 to 150,000, some enthusiasts looking for 200,000.

"The Cleveland-Folger race of 182 recurs most readily to the mind of veteran observers. The rising against the Arthur adminstration, which had inherited the evil fruitage of the Garfield-Congling feud, was sweeping enough, but it lacked the resonancy of the revolt and outery provoked by the conduct, the methods and the speches of Theodore Roosevelt.

"The Old Guard of that day, ied by Conkling and Platt, backed by Arthur, had put up Judge Polger, the Secretary of the Treasurer, for Governor.

WAS AN ABLE MAN.

WAS AN ABLE MAN.

He was, as Mr. Stimson, the present Republican nominee, is, admittedly an able and popular man. The half-breeds—that is, the Blaine-Garffeld crowd—awore, not loud, but deep, and to the tune of at least 100,000 stayed away from the poils.

"Cleveland carried the State by nearly 200,000. Folger, a sensitive man. was so humiliated that he took to his bed and actually died—of broken heart, his friends declared. Two years later the Democrats again carried New York against Blaine, the Republican schism having widened in both directions; and

ROOSEVELT THE ISSUE.

ROOSEVELT THE ISSUE.

In this campaign Roosevelt and Rooseveltiam is the sole issue. It is a burning issue and is proving a losing issue. Wherever the former Presidesi has appeared he has made votes for Dix. That this is so Mr. Roosevelt has only himself to blame. He will in the end find that he has much to answer for, both to his party and his own fame and credit. They could not get on without him—the Republicans tell us—and they begin clearly to see that he will wreck them—has already wrecked thom, now that they have him.

"Why should such a state of case exist and why should he permit it to continue, when in a moment and by a word he could settle it? Eliminate 1912 and not only would national interest, but Republican factionism dropoments of the components of the contract of the contr

On the contrary, I have always had a strong personal predeliction for Theodore Roosevelt, having known both sides of his family before he was born, and kept an interested eye on him since he left college. His intellectual activeness is as extraordinary as his physical activity. He successfully combines the gentieman of clegant and the contrary of the servery thing, consumingly. He is by birth a patrician with vaulting ambition; an opportunist in temperament, who believes what he inclines to. His surprising inconsistencies have this origination and paternity.

The conquest of the air by flying man is a subject that is fresh every morning. Each day some man makes ancient history of yesterday's achievements.

It is necessary that you should have a record of what has been done to grasp and appreciate the fragmentary accounts in your daily newspaper.

"The Evolution of a Flying Man," one of the intensely interesting contributions to the November Century, by Augustus Post, (one of the passengers in the famous balloon America II,) is the story of what Glenn Curtiss has done in this field. It is complete, authoritative and interesting, and it is illustrated by many new and well printed pictures.

This November number has many interesting pictures. A series by Harold Matthews Brett illustrates incidents in the lives of Nathan Hale and Major André. A series by John Wolcott Adams depicts with quaint humor "The Old Time Circus."

Public Confidence is one of our most Valuable Assets; note it well—we want that point to sink in deep; through all the years of our business life the attitude of this store toward the clothesbuying public has been confidence inspiring; in every single instance we have striven to do the RIGHT THING, and the people have not been slow or stinted in bestowing their approval; our sole ambition has been to make this store an ideal trading place for masculine Los Angeles; as to how well we have succeeded our wonderful business eloquently attests.

We are doing the largest Hat, Furnishing and Men's Clothing Business in California; in fact, we know of very few stores in the United States which equal Desmond's in volume of business, this should be news of unusual interest, as it indicates clearly and unmistakably that "Desmond's" is making good, and that is precisely what you and every other clothing buyer requires of the house you deal with.

OCAL STREET FOREMAN JOINS IN GREAT REUNION

Official, Father of Noted paper Woman Writer, Ro-From Visit in East, Where ty-two Children with Their indants Celebrate Birthday.

With the joy of Indian summer in this face, Silas G. Ramsey, residing at the face of the face, returned to his work as street foreman yesterday, after a vacation of two weeks at also old home in Kansas.

While away Ramsey heard the blackwirds, the squirrels and the crows quarreling about their share of the spoils of the corn fields of the finding sumach erries, heard the undertone of the sulling Mississippi and saw the first roosts paint the autumn leaves.

Mr. Ramsey has a greater claim to tame than the foremanship of a street than the foremanship of a street than the foremanship of a street than that of the ploneer contractor who built railroads into Kansas lity fifty years ago, when only the world of a blacksmith and of a grading samp's commissary marked the spot shere the great twin cities stand towards the great twin cities stand towards the great twin cities stand towards the great twin cities in the fact lam to distinction lies in the fact lam to distinction lies in the fact that he is the father of Mrg. Lucile hamsey Baker, known to the world as the versatile and brilliant Becky Sharp, whose clever newspaper writing has been one of the star features of New ork journalism for twenty years.

Not until yesterday did his fellow-workers in the Los Angeles street demartment learn that he is the father of a woman of such note. Becky sharp's descriptions of travel and her delicious humor have been like a lawen of light in the newspaperdom of the Bast. Of course, Mr. Ramsey's Los Angeles associates now know the ource of his own rich humor. Naturally, he inherited it from his exceedingly ciever daughter.

Mr. Ramsey's business in the East was most decidedly personal. He went there to conduct a unique enterprise which absolutely demanded his presence. It was the celebration of his own irribay. Since, in his opinion, he already has the most handone wife in loss Angeles, he does not hesitate to confes

him the certainty of many happy turns.

Mr. Ramsey was born in Missouri, the went to the site of Kansas y fifty-two years ago and became nous in that State as a most accommender, of the firm of Phillips, msey & Masn.
